Marketing Material

THE FUND: Zest AMELANCHIER Fund is a flexible global balanced fund denominated in Euro, set up according to UCITS V rules, which prevalently adopts a bottom-up approach. The fund invests mainly, but not exclusively, in main developed markets with particular focus on US and EU countries.

THE STRATEGY: An essential feature of the fund is the high degree of flexibility in allocating its investments into different asset classes (cash, fixed income, equity) adjusting and modifying the related weights based on specific risks/opportunities' assessments, on macroeconomic analysis and on global political and social changes. The fund's strategy deliberately does not include any benchmarks in order to allow maximum freedom to switch from one asset class to another very quickly and flexibly. It is part of the Fund's strategy shorting Put and Call options to optimize the overall returns, while is excluded the adoption of options-based strategies, which would entail leverage. Furthermore, the Fund may invest a minor portion of its assets in structured products tied to Indices and Shares, with the goal of protecting part of the Equity exposure in case of market corrections. Technical analysis on the other hand is adopted to support and maximize timing accuracy.

The Zest Amelanchier does not have performance fee, nor redemption or front load fees.

Information regarding investment risks

Past performance is not a guide to future performance. The performance data does not take into account of the commissions and costs incurred on the issue and redemption of units. The value of investments and any income is not guaranteed and can go down as well as up and may be affected by exchange rate fluctuations. This means that an investor may not get back the amount invested. Index returns assume reinvestment of dividends and capital gains and unlike fund returns do not reflect fees or expenses. Investing in financial products involves risks, including in particular those associated to market fluctuations as well as the inherent risk of every product type. Investments may also be affected by changes to the rules and regulations governing exchange controls or taxation, including withholding tax, or by changes to economic and monetary policies. Future performance is subject to taxation which depends on the personal situation of each investor, and which may change in the future. The possible investment in securities must be independently assessed on the basis of the Prospectus of the financial instrument and the suitability of the financial instrument with the specific characteristics of each investor. For additional information on risks, please read and refer to the KID and Prospectus.

Information regarding costs

Not all the costs are presented in this document; further information can be found in the Prospectus. Also, part of the total costs that are paid by the sub-fund might be represented and paid in a currency other than that of the Member State in which the target investors are residents; so, costs may increase or decrease as a result of currency and exchange rate fluctuations.

Sustainability Factors – Information and Disclosure

For the purposes of Article 7(2) of SFDR, the Management Company confirms in relation to the Company and each Compartment that it does not consider the adverse impacts of investment decisions on sustainability factors at the present time. Sustainability factors are defined by SFDR as environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters. The main reasons for which the Management Company is currently not considering adverse impacts is the absence of clear regulatory guidance, sufficient data and data of a sufficient quality to allow the Management Company to define material metrics for disclosure.
