ZEST ARGO As of 30.06.2023

Marketing Material

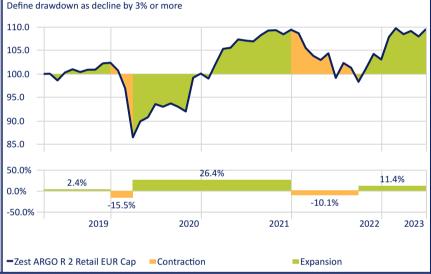

THE FUND: Portfolio may be invested up to 40% in equities, focused on Western economies, mainly Europe and US, selecting shares by an initial top down approach and a subsequent bottom-up stock picking with a preference for industrial and luxury goods sectors.

THE STRATEGY: A quantitative and financial analysis is carried out, followed by a qualitative analysis of management and corporate governance. The same approach is also used for selecting corporate bonds, meanwhile regarding Govies a macroeconomic and top-down study is preferred. The strategy of the fund also includes ETFs or UCITS EU harmonized funds for investments relating to emerging markets or Japan if required by the fund manager, according to macroeconomic signals. Derivatives (futures and options) are considered too in the investment strategy as directional hedging on interest rates and equity markets. The fund had got a high single digit return target on a yearly basis, coping with a low single digit volatility.

No distribution, no offer, no solicitation, no advice

The information and opinions contained in this document are of purely informative nature and shall in no way constitute an invitation, offer, recommendation, advice or inducement to buy or to sell, to apply for or to subscribe to securities, financial instruments, financial or investment products or services, nor persuasion to effect transactions. Furthermore, they do not constitute advice on legal, fiscal, business or other matters in any way and are unsuitable as basis for decision-making.

No guarantee

Every care has been taking in preparing the content of this document; however, ZEST SA cannot guarantee that the content is always correct, accurate, complete, reliable or up to date. ZEST SA is not obliged to correct information that is no longer up to date from this document or to explicitly identify it as such.

No liability

In no circumstance whatsoever - including negligence - may ZEST SA, its directors or any employee be held liable for loss or damage of whatsoever type, whether direct or consequential, deriving from the use of this document.

Information regarding investment risks

Investing in financial products involves risks, including in particular those associated to market fluctuations as well as the inherent risk of every product type. Investments may also be affected by changes to the rules and regulations governing exchange controls or taxation, including withholding tax, or by changes to economic and monetary policies. No guarantee can be given that the indicated objectives will be achieved and that investors will recover the amount of their initial investment. Past performance is not an indicator for future results or performance. Financial products are exposed to various risks, depending on its complexity, structure and investment policies. The possible investment in securities must be independently assessed on the basis of the Prospectus of the financial instrument and the suitability of the financial instrument with the specific characteristics of each investor.

Sustainability Factors – Information and Disclosure

For the purposes of Article 7(2) of SFDR, the Management Company confirms in relation to the Company and each Compartment that it does not consider the adverse impacts of investment decisions on sustainability factors at the present time. Sustainability factors are defined by SFDR as environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters. The main reasons for which the Management Company is currently not considering adverse impacts is the absence of clear regulatory guidance, sufficient data and data of a sufficient quality to allow the Management Company to define material metrics for disclosure.
